Harry Potter and the Sorcerer's Stone by J.K. Rowling. ^{Voc.}
It is a story about three little wizards who are going into the Hogwarts wizarding school, where they are getting into funny (or maybe not so funny) occasions, fighting evil and even solving the mystery of obtaining the ^{the} legendary Sorcerer's Stone. The protagonist of the book is a young boy Harry, who has lost his parents and has lived with his aunt. Aunt Petunia didn't like Harry, so he lived in the attic under a staircase. On the train to Hogwarts, Harry meets Ron and Hermione, who he will become friends with later. Ron is a boy from a family of wizards. He is lazy and a bit dumb at the first glance, but this is far from reality. Hermione, on the other hand, was born in a family of non-wizards, but because she is curious and hard-working, she has the highest grades, than anyone else had. This story taught me and will teach a lot of kids to work in teams, that evil, most of the times, is just people, who are desperate and do bad things because they have nothing left to do. And, as many other books do, "Harry Potter and the Sorcerer's Stone" will teach children to be kinder.
